**12-2 Frequency and Histograms**

The following numbers represent the number of minutes different people spent on the internet in a day:

75, 38, 43, 120, 85, 48, 52, 13, 41, 62, 19, 50, 51, 27

- a. Make a frequency table to represent the data. Use 4 classes.

Class	Frequency

- b. Draw a histogram to represent the data. Be sure to label everything clearly!
